The sharing

It is a family story since the exploitation has already existed for three generations. The origin of this exploitation dates from 1910, when my grandfather, forced to flee his native land of Italy, settles on these lands. He then left the lands to his children who continued to grow the farm which has grown steadily over the years. time to reach today fifty hectares of vineyards in Bordeaux and Bordeaux Supérieur including 85% red and 15% Sauvignon Blanc.
