The natural gift you would like to have?

To be able to foretell the future

My grandparents bought the property in the 1920s but did not specialize in the vine culture; they used to grow different crops. When I became the owner of the estate in 1995, I gave all my love to wine: I decided to plant different red grape varieties and I build a wine cellar. I never get tired of spending time among my vines. Working in the cellar is what I prefer about wine.
